## The Temple Inn and Suites

### Site planning document

**Site Purpose:** The temple inn and suites is a hospitality company that is focused on providing short term lodging for temple patrons. The website will be designed to facilitate customer booking of suites and will inform patrons about, and enhance our services.

**Target Audience:** Our target customers are temple patrons and temple workers. We are looking to attract anyone who travels to visit temples outside their home temple district, and those who wish to attend the temple while traveling for business or pleasure.
